

# Selenium Jenkins

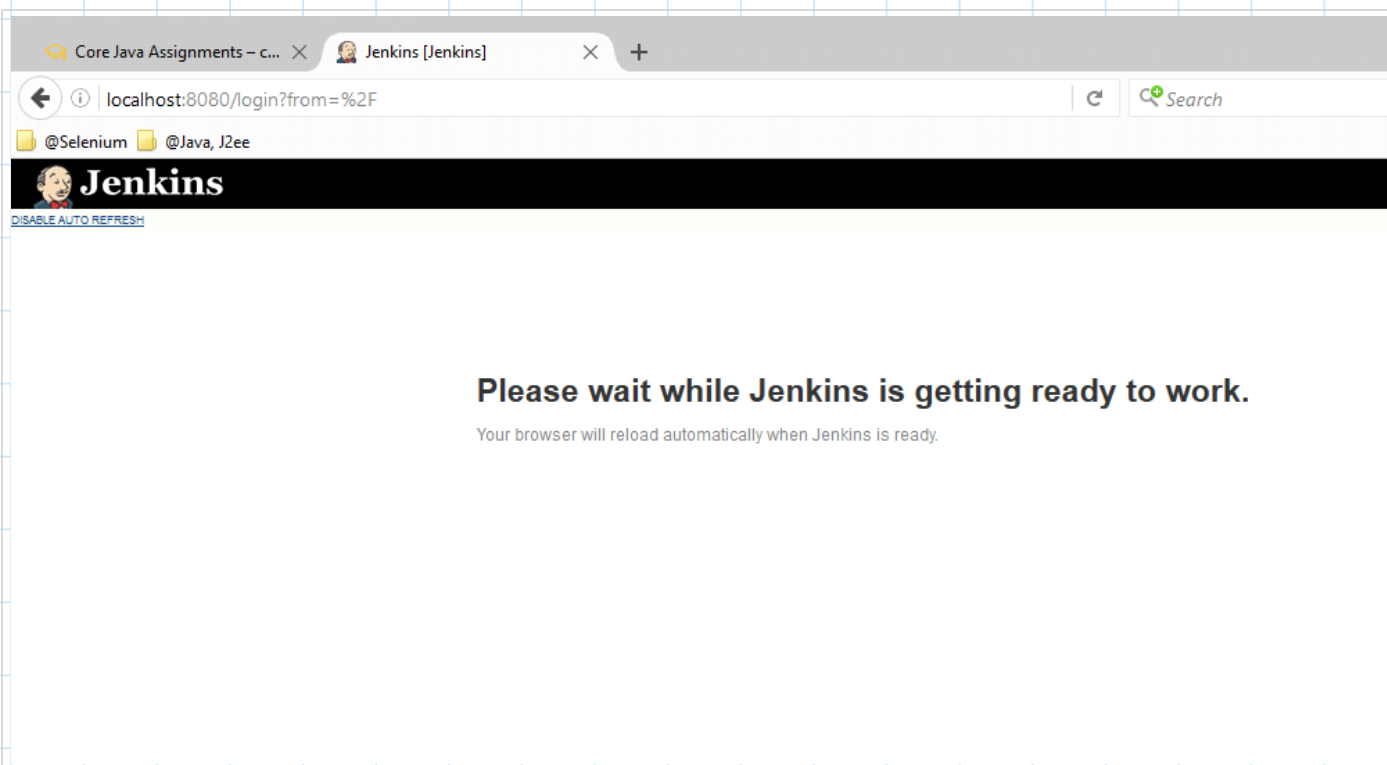

21 March 2018 18:10

Jenkins initial setup is required. An admin user has been created and a password generated. Please use the following password to proceed to installation:

df6762dd389b48e6b7643e750f25e804

This may also be found at: C:\Users\naresh\.jenkins\secrets\initialAdminPassword

# Unlock Jenkins

To ensure Jenkins is securely set up by the administrator, a password has been written to the log (not sure where to find it?) and this file on the server:

`C:\Users\naresh\.jenkins\secrets\initialAdminPassword`

Please copy the password from either location and paste it below.

Administrator password

## Customize Jenkins

Plugins extend Jenkins with additional features to support many different needs.

### Install suggested plugins

Install plugins the Jenkins community finds most useful.

### Select plugins to install

Select and install plugins most suitable for your needs.

## Getting Started

# Getting Started

✓ Folders	OWASP Markup Formatter	Build Timeout	Credentials Binding	** Script Security ** Command Agent Launcher
Timestampers	Workspace Cleanup	Ant	Gradle	Folders ** bouncycastle API
Pipeline	GitHub Branch Source	Pipeline: GitHub Groovy Libraries	Pipeline: Stage View	
Git	Subversion	SSH Slaves	Matrix Authorization Strategy	
PAM Authentication	LDAP	Email Extension	Mailer	
				** - required dependency

Jenkins 2.107.1

## Getting Started

# Create First Admin User
